Nakyung (Chloe) Oh

4817 Sheboygan Ave, Madison, WI 53705
(608) 658-8035 | nakyung.oh@gmail.com | https://www.linkedin.com/in/nakyungoh/

EDUCATION:

Masters of Science in Psychology: Data Science in Human Behavior Expected December 2026
University of Wisconsin-Madison, Madison, WI

Bachelor of Science in Psychology, Minor in Statistics December 2024
University of Cincinnati, Cincinnati, OH GPA: 3.822

FELLOWSHIPS:

International Outreach Award January 2021 - December 2024

- To receive an International Outreach Award, all students should maintain a 3.0 cumulative University of Cincinnati GPA per academic semester and complete 15 hours of community service per academic semester

Dean's List January 2021 - December 2024

- As a recognition of academic excellence, to be a part of the Dean's List, a UC student should achieve a semester grade-point average of 3.4 or higher while enrolled in 6 or more credits per semester

RESEARCH INTERESTS:

My research interests focus on the intersection of behavioral science and data analytics, specifically on using psychological theory and advanced data science methods to understand and predict human behavior and decision-making within broader social contexts. Through computational modeling, statistical analysis, machine learning, and quantitative research, I aim to translate complex behavioral data into meaningful insights. My long-term goal is to develop evidence-based predictive models and data-driven solutions that contribute to advancements in education and societal well-being.

PROJECTS:

Does Reading Matter March 2026 - Present
University of Wisconsin-Madison, Madison, WI
Mentor: Dr. Nick Buttrick

- Investigate the relationship between long-term reading habits and individual differences in worldview, cognitive style, and psychological complexity
- Collaborate with a research team to develop and refine AI prompts for qualitative coding and analysis of Goodreads review data
- Construct a custom GPT workflow using the OpenAI API to automate qualitative coding and support scalable text analysis
- Refine prompt logic and coding instructions to improve the accuracy and consistency of outputs generated by the trained large language model.

Brain Emotional Regulation March 2026 - May 2026
University of Wisconsin-Madison, Madison, WI
Mentor: Dr. João Guassi Moreira

- Applied neural decoding techniques to develop a predictive signature for classifying emotion regulation states in previously unlabeled neuroimaging data

- Conducted parcel-wise classification across 200 predefined brain regions using standardized brain parcellation methods
- Built and optimized a custom K-nearest neighbors decoding model, achieving the highest classification accuracy within the project group

Reimplementation of Neural Network Model January 2026 - May 2026

University of Wisconsin-Madison, Madison, WI
Instructor: Dr. Tim Rogers

- Reimplemented Rumelhart and McClelland (1986) past-tense neural network model in Python using a modified verb dataset
- Assessed whether the model reproduced key developmental patterns in language acquisition, including overregularization, recovery of irregular verbs, and U-shaped learning
- Evaluated model performance across training stages and verb categories using accuracy based analyses

RESEARCH EXPERIENCES:

Capstone Research Student September 2024 - December 2024

Course: PSYC5060 - Research Cap: Human Factors
University of Cincinnati, Cincinnati, OH
Researcher Advisor: Gregory J. Funke

- Partnered with classmates on critically evaluating research articles, analyzing limitations, and discussing the implications and relevance of studies focused on human performance
- Presented research topics and methodologies from assigned articles, leading discussions to enhance class understanding of research processes
- Authored on APA-format lab report investigating the impact of inaccuracies in AI system recommendations on user trust levels

Research Assistant May 2024 - December 2024

Ulrich-Lai Laboratory
University of Cincinnati Metabolic Diseases Institute, Cincinnati, OH
Research Advisor: Yvonne Ulrich-Lai

- Analyzed the skills of monitoring and recording the rodents' social interaction behaviors using Behavioral Observation Research Interactive Software (BORIS) program
- Utilized the GraphPad PRISM program to analyze the statistical significance of rodents' behavior, PNN expression, and sucrose stress exposure
- Completed IACUC (Institutional Animal Care and Use Committee) protocol to work with rodents in lab
- Helped on Sippers to the rodents, giving sucrose or water to each group of rodents at the reserved time
- Conducted the ImageJ program on finding the intensity of the PNN and parvalbumin cells in the prefrontal cortex

Data Collector March 2024 - April 2024

'Play a Retro Video Game' Research
University of Cincinnati, Cincinnati, OH
Research Advisor: Tamara Lorenz, Samuel Obafisoye

- Guided study participants through video game procedures and provided technical assistance throughout the research session
- Coordinated participant registration and scheduling while collecting required demographic and background information
- Consolidated participant survey responses into a centralized dataset for subsequent researcher analysis

Research Assistant September 2023 - August 2024

Children Cognitive Research Laboratory
University of Cincinnati, Cincinnati, OH
Research Advisor: Heidi Kloos

- Managed and organized research data in Google Sheets to support accurate and efficient data entry
- Entered and maintained data collected from children at Corryville Elementary School
- Contributed to assessment scoring and the analysis of children's cognitive and mathematical learning outcomes in collaboration with laboratory team members
- Co-authored and submitted an abstract to the 2024 Midwestern Psychological Association Conference examining the relationship between students' emotions and learning behaviors

Capstone Research Student September 2023 - December 2023

Course: PSYC5053 - Research Cap: Children's Learning
University of Cincinnati, Cincinnati, OH
Research Advisor: Heidi Kloos, Ana Ocasio, Heather Putnam

- Collaborated with team members to conduct research and write a research paper
- Orchestrated project responsibilities, monitored team participation, and supported the timely completion of research tasks
- Documented a literature review about "Math learning in children experiencing homelessness" to examine the relative factors that affect homeless children on learning math
- Developed professional communication and public speaking skills by presenting research findings and providing constructive feedback on peer presentations

PUBLICATION:

1. Nashawi, H., Foltz, C. T., Oh, N., Santiago, E. A., Selm, D. R., Herman, J. P., & Ulrich-Lai, Y. M. (2026). Limited sucrose intake produces subregion-specific remodeling of perineuronal nets in the medial prefrontal cortex. *Brain Structure and Function,* 231(7), 98.
   My Contribution: Measured the intensity of perineuronal nets (PNNs) and parvalbumin cells in the prefrontal cortex with using ImageJ software and analyze the data with using GraphPad Prism

TEACHING EXPERIENCE:

Teaching Assistant August 2023 - December 2023

Course: PSYC 2002C - Research Methods and Statistics II
Department of Psychology, University of Cincinnati, Cincinnati, OH
Professor: Michael J. Droboniku

- Graded student coursework and statistical analysis worksheets covering t-tests, one-way ANOVA, and two-way ANOVA
- Communicated with students via email to monitor their progress and address questions regarding lectures and assignments
- Interacted with course instructors to address students' technical issues and support timely resolution

Teaching Assistant August 2023 - December 2023

Course: PSYC 2051 - Psychopathology
Department of Psychology, University of Cincinnati, Cincinnati, OH
Professor: M. Sima Finy

- Recorded and evaluated student attendance and class participation using Canvas
- Supported students experiencing difficulty with course material and responded promptly to student mails
- Graded students' writing assignments and provided constructive feedback on their research projects

Teaching Assistant August 2022 - December 2024

Course: PSYC 2002C - Research Methods and Statistics II
Department of Psychology, University of Cincinnati, Cincinnati, OH
Professor: M. Sima Finy

- Evaluated student coursework and provided feedback on statistical analyses, including t-tests, one-way ANOVA, and two-way ANOVA
- Maintained regular communication with students via email to monitor progress and supported appropriate pacing through lectures and assignments
- Connected with course instructors to address students' technical issues and academic concerns

Teaching Assistant August 2022 - December 2022

Course: PSYC 1001L - Intro to Psychology Lab
Department of Psychology, University of Cincinnati, Cincinnati, OH
Professor: Phil Masline

- Evaluated students' critical thinking assignments and provided constructive feedback
- Facilitated students' understanding of laboratory lectures and critical-thinking concepts
- Guided students in writing research papers in accordance with APA formatting guidelines

WORK EXPERIENCE:

Data Collector December 2025

Department of Life Sciences Communication, University of Wisconsin-Madison, Madison WI

- Researched and identified physical mailing addresses for AI researchers using URLs provided in a structured dataset
- Administered supplementary online research through Google Scholar and other publicly available sources to verify address accuracy
- Compiled and gathered 500 verified mailing addresses in Microsoft Excel to support efficient tracking and review

Academic Administrator January 2025 - August 2025

Platinum SAT Academy, Seoul, South Korea

- Implemented a Google Sheets-based scheduling system to track student and instructor availability, streamline class coordination, and reduce scheduling conflicts
- Designed advanced vocabulary assessments to support students' language development and SAT preparation
- Onboarded and trained new administrative staff on operational procedures and the effective use of Google Sheets-based management tools

Student Assistant January 2024 - May 2024

Pre-Art Therapy Internship
University of Cincinnati Gardner Neuroscience Institute, Cincinnati, OH
Professor: Meera Rastogi

- Conducted patient screenings for individuals with multiple sclerosis during art therapy sessions
- Prepared and organized materials and supplies to support efficient therapy delivery
- Engaged patients in supportive conversations about their completed artwork and assisted with interpreting their reflections and experiences

UNIVERSITY SERVICE:

Active Ambassador January 2024 - December 2024

Arts and Science Ambassador

University of Cincinnati, Cincinnati, OH

- Implemented strategies to welcome and guide new students entering the Arts and Sciences program
- Represented the Arts and Sciences program at Admitted Bearcats events and shared personal experiences with newly admitted students
- Engaged with fellow ambassadors to discuss program strengths and recommended potential improvements

Honors Seminar Proposal Review Committee September 2023 - October 2024

University Honors Program
University of Cincinnati, Cincinnati, OH

- Evaluated and rated faculty proposals submitted for Honors seminars
- Communicated with committee members to select seminar proposals for the following academic year
- Provided detailed feedback on the alignment between each proposal and the goals and interests of the Honors Scholars program

Honors Student January 2022 - December 2024

University Honors Program
University of Cincinnati, Cincinnati, OH

- Participated in interdisciplinary seminars to broaden academic knowledge and strengthen leadership skills
- Enhanced critical-thinking abilities through in-depth analysis of topics across diverse academic disciplines
- Acquired a well-rounded education by exploring subjects beyond psychology

Ambassador January 2022 - December 2022

One for the World
University of Cincinnati, Cincinnati, OH

- Examined strategies for building a global movement to address and reduce extreme poverty
- Co-operated with fellow members to raise community awareness of global poverty-related issues
- Debated potential strategies for reducing global poverty with team leaders

Instrument - Cello January 2022 - May 2022

University of Cincinnati Symphony Orchestra
University of Cincinnati, Cincinnati, OH

- Performed on stage as part of a collaborative orchestra ensemble
- Achieved section-wide balance, precision, and musical cohesion through close collaboration with fellow cellists
- Demonstrated commitment through consistent rehearsal attendance and disciplined independent practice

COMMUNITY SERVICE:

Pharmacy & Surgery Waiting Volunteer January 2023 - February 2024

Trihealth Good Samaritan Hospital, Cincinnati, OH

- Streamlined pharmacy operations by organizing returned medications alphabetically for efficient retrieval and inventory management
- Guided patients' families to recovery areas following surgical procedures
- Facilitated post-surgical communication between physicians and patients' families

Teaching Assistant - Volunteer January 2022 - May 2022

Corryville Elementary School, Cincinnati, OH

- Supported the music teacher in instructing students from kindergarten through eighth grade
- Taught foundational cello skills, including proper posture, technique, and sight-reading
- Fostered a supportive learning environment by mediating peer conflicts and assisting students experiencing social challenges

PROFESSIONAL MEMBERSHIPS:

The National Society of Leadership and Success August 2022 - December 2024

- Developed strategies to support personal growth and long-term career success
- Strengthened leadership skills through structured training and professional development activities

CERTIFICATES:

SQL Essential Learning July 2026

Linkedin Learning

- Acquired foundational knowledge of relational databases, SQL, and DB Browser for SQLite
- Wrote and executed SQL queries to retrieve, filter, and organize data using `WHERE`, `GROUP BY`, and aggregate functions
- Applied inner, left, and right joins to combine and analyze data across relational database tables
- Created and utilized database views to simplify queries and support efficient, reproducible data analysis

CITI Program

ID: 12546421

- Working with IACUC
- Working with Rats in Research Settings
- Students Research
- Responsible Conduct of Research
- HSR CORE for 2017 Program
- Children Research

Mental Health First Aid USA June 2024 - June 2027

ID: 220924681

SKILLS:

- **Programming and data:** Python, R, SQL, SAS, Microsoft Excel, Google Sheets
- **Methods:** K-nearest neighbors, neural networks, classification, regression, model evaluation, behavioral data analysis
- **Research and analytic tools:** OpenAI API, R Studio, JASP, GraphPad Prism, ImageJ, BORIS, Jupyter Notebook
- **Language**: Korean (native), English (fluent)
